Winter Session is coming...

As the economy faces challenging times, we are more careful about how and for whom we spend our money. Tangible goods lose their luster; the intangibles, like education, continue to be important. Educating our children is usually at the top of our list. At Mill Creek Academy, we are proud to offer programs that you can trust, taught by hand-picked faculty members. We hope you will join us this Winter for a session loaded with potential for your children.

Sincerely,
Joyce Wong
Director

AP Spring Boot Camp Preparation in April 2017

AP tests are administered in May and with the complexity and quantity of information on AP tests, we offer support to help your child with their test preparation. Instructing curriculum, reviewing content, discussing tips and techniques, your child will have an opportunity to practice and review AP material to maximize their potential. Our AP teaching faculty, all who are from our local school districts, have successfully helped hundreds of students achieve passing scores on their AP tests. We hope you will join us for our 4- week intensive AP Spring Boot Camp preparation during the month of April. The schedule for the AP Spring Boot Camp will be launched early February.

SAT PREPARATION

Please note: our popular SAT I program will now only be offered during the summer session.
